“You came to planet earth to find yourself. Happiness, success and abundance are already yours. All you need to do is claim them for yourself.”

Dr. Francisco Coll

Who we are:

Dr. Francisco Coll founded the **Americana Leadership College, Inc** in 1967. **ALC programs** entered Canada, Australia and New Zealand between 1969-76. ALC is a college of experience based on a few simple concepts:

- We are energy; souls with a physical body.
- Everyone has Angels (Spiritual Guidance).
- We come to Planet Earth with a purpose.
- We have been, we are, and we will always be

Americana Leadership College courses include a diverse curriculum of programs and services that are helping people around the world satisfy an **inner hunger** for spiritual clarification about life, love, inner guidance and life purpose.

Many people are realizing that there is more to life than what is being taught in traditional avenues. This “hunch” is real - there is more to life. You have your own answers.

Dr. Coll's extensive research for over 45 years has been preserved in diverse **ALC** lectures, courses, and consultations. The Americana Leadership College has reached millions, while helping train over 300,000 people in advanced perception and Energy Dynamics techniques worldwide.

Program content is designed to help individuals gain a deeper awareness of life on Planet Earth and satisfy an inner desire for greater self understanding and fulfillment.

Are Americana Leadership College programs right for you?

ALC programs are for the individual who wants to experience a deeper dimension of reality and fulfillment. It is for those who want to make a difference in their own life first and then be a Wayshower to others. ALC is for people who want to make a difference on Planet Earth

The following topics from the **Man and the Universesm** lecture, book, and video are a sample of the material and the vibration you will experience in ALC .

Universal Mansm: We are souls with physical bodies. You don't have a soul, you are a soul. You have been, you are, and you always will be, because you are energy, a life force. Each of us has an innate ability to sense the thoughts and feelings of others. This is commonly called ESP (extra sensory perception).

Thought & Feeling: Innately we are all seeking balance within our inner, personal universe and with our outer universe (the environment). We have an intellect to help us stay organized, and we have feelings that provide the motivation and desire to be involved in life. Having balance means we are doers in life, not observers of life.

Angels: We all have spiritual guidance who can help us if we let them. Angels can share hunches or insights, but it is up to each of us to make our own decisions. Angels are like our very best friends and advisors.

Four Spiritual Giftssm: Each of us has four spiritual gifts or types of perceptions in a unique order. They are Intuition, Vision, Prophecy, and Feeling. Through these gifts we perceive and communicate with our guidance and the world.

Live and Let Live: Life is simple when a “live and let live” philosophy becomes a way of life. Through spiritual unfoldment we learn that no-one is lost and no-one can be saved. All we can do is be an example, inspiring others to help themselves and share their wisdom..

These are the fundamentals that, when mastered, can lead a you to a life of fulfillment and personal satisfaction.
