

Group Shepherd Message

I cleanse you and bless you, and I respect you as I respect myself.

Let this group be the watering hole to quench your thirst on your path of spiritual search for yourself. The moment your thirst has been quenched, the group has fulfilled its purpose.

I, for one, look forward to learning from you in my path of spiritual growth. As we search in freedom, let us never forget our free will, our personal loyalties, our reverence and kindness to ourselves and each other in this galaxy system of ours.
